INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the Crestline Sanitation District as of and for the years ended June 30, 2017 and 2016, and the related notes to the financials, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the State Controller's Minimum Audit Requirements and Reporting Guidelines for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business type activities of Crestline Sanitation District as of June 30, 2017 and 2016, and the respective change in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion, the Schedule of the District's Proportionate Share of the Plan's Net Pension Liability and Related Ratios as of the Measurement Date, the Schedule of Plan Contributions, Other Post Employment Benefits (OPEB)-Schedule of Funding and the Notes to Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis Years Ended June 30, 2017 and 2016

Our discussion and analysis of Crestline Sanitation District's (District) financial performance provides an overview of the District's financial activities for the fiscal years ended June 30, 2017 and 2016. Please read it in conjunction with the District's basic financial statements.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at June 30, 2017 and 2016 by \$16,063,488 and \$15,943,636 respectively, which is reported as net position.
- The Sewer enterprise of the District is a business-type activity that is intended to recover all or a significant portion of its costs through user fees and charges. The sewer rates increased 8% in November 2016 over the prior year.
- The District's long-term debt in the form of a loan from the State Water Resources Control Board decreased by \$104,357 in 2017 and \$102,594 in 2016.
- At June 30, 2017 and 2016, the District was carrying accounts receivable in the amount of \$1,014,382 and \$877,541 respectively.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. Required statements for proprietary funds are: 1) Statement of Net Position, 2) Statement of Revenues, Expenses and Changes in Net Position, and 3) Statement of Cash Flows. The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Fund Net Position are prepared using the economic resource measurement focus and the accrual basis of accounting.

The ***Statement of Net Position*** presents information on all of the District's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Over time, increases and decreases in net position can serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Nonfinancial factors should also be considered to assess the overall financial position of the District.

The ***Statement of Revenues, Expenses and Changes in Net Position*** reports the changes that have occurred during the year to the District's net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Revenues and expenses are reported for some items that will result in cash flows in the subsequent years.

The ***Statement of Cash Flows***, as the name implies, is concerned solely with flows of cash and cash equivalents. Only transactions that affect the District's cash position are reflected in this statement. Transactions are segregated into four sections on the statement: 1) cash flows from operating activities, 2) cash flows from noncapital financing activities, 3) cash flows from capital and related financing activities, and 4) cash flows from investing activities.

The change in debt is due to principal repayments and pension and other post-employment benefits obligation related adjustments. More detailed information about the District's long-term liabilities is presented in Notes 4, 5 and 6 to the financial statements.

Unrestricted Net Position

The District had unrestricted net position of \$7,048,778 at June 30, 2017. The Board of Directors has designated unrestricted net position for reserves as follows:

<u>Designated Reserves</u>	<u>Amount</u>
Reserve for operations	\$ 917,654
Reserve for capital replacement	3,891,549
Reserve for catastrophe response	<u>2,239,575</u>
Total reserved net position	<u>\$ 7,048,778</u>

The District's reserve policy endeavors to designate unrestricted net position as follows: reserve for operations at six months of projected operating costs for the 2016/17 budget year plus one year's debt service; reserve for replacement at 25% of accumulated depreciation as of the beginning of the 2016/17 budget year; reserve for catastrophe response at 25% of net capital assets as of the beginning of the 2016/17 budget year; and reserve for capital projects as necessary to fund capital projects identified in the 2016/17 budget. The District's target reserve balance for 2016/17 is \$10,171,532 in accordance with the reserve policy and the 2016/17 budget, which is \$3,122,754 higher than available unrestricted net position as of June 30, 2017.

Crestline Sanitation District

Notes to Financial Statements Years Ended June 30, 2017 and 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Operations of the District

The Crestline Sanitation District (District) was established by an act of the Board of Supervisors of the County of San Bernardino on January 21, 1946 as a component unit of the County of San Bernardino, to provide sewer services to the Crestline area. The District operates and maintains three treatment plants, 90 miles of collection systems, a 14-mile effluent outfall line, and an effluent disposal site. The District provides sewage collection, treatment, and disposal services for 5,284 Equivalent Dwelling Units (EDUs).

On November 4, 2008, Measure R was passed by the community of Crestline. This measure established a Governance Committee, whose purpose is to conduct a study and recommend to the County Board of Supervisors whether or not the District should change its governance to a district governed by a locally elected board composed of residents of the District. On February 16, 2010, the Governance Committee issued its Governance Feasibility Report, which recommends a reorganization of the governing body of the District from a Board-governed to self-governed Board of Directors. As a result of this recommendation, a special election was held on August 3, 2010 for the community of Crestline to give final vote as to the future governance of the District and the five local residents that would serve as the Board of Directors. The voters voted in favor of the District to become a self-governed District. As of October 1, 2010, the governance of the District was transferred from the County Board of Supervisors to the District's locally elected board.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The District's financial statements have been prepared using the *economic resources measurement focus* and the *accrual basis of accounting*, in conformity with generally accepted accounting principles (GAAP). Under this basis, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The District has elected to follow all pronouncements of the Governmental Accounting Standards Board (GASB).

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes to Financial Statements Years Ended June 30, 2017 and 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and Cash Equivalents

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, demand deposits at financial institutions, investments in money market funds, certificates of deposit with an original maturity of 3 months or less.

Investments

Investments are stated at fair value (the value at which financial instruments could be exchanged in a current transaction between willing parties, other than in a forced liquidation sale). Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

Allowance for Uncollectible Accounts

No allowance for uncollectible accounts receivables was recorded at June 30, 2017 and 2016 based on management's expectation that all accounts receivable will be collected through the property tax roll.

Prepaid Expenses

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in the financial statements.

Inventory

Inventories are valued at cost which approximates market, using the first-in/first-out (FIFO) method. The costs of inventories are recorded as expenses when used (consumption method).

Capital Assets

Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 (for improvements to land, structures and improvements, vehicles, and equipment) and have an estimated useful life in excess of two years. Purchased or constructed capital assets are recorded at actual cost or estimated historical cost if actual cost is unavailable. Donated capital assets are recorded at acquisition value at the acquisition date. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital Assets (continued)

Major capital outlays are capitalized as construction in progress and are not depreciated until placed into service.

Capital assets of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Improvements to land	10 - 45
Structures and improvements	5 - 45
Vehicles	5 - 15
Equipment	3 - 15

Long-Term Obligations

Long-term debt and other long-term obligations are reported as liabilities in the statement of net position.

Employee Benefits/Compensated Absences

District employees earn vacation and sick leave days based on length of service. Upon termination, the District is obligated to compensate employees for 100% of the accrued unused vacation time. Upon retirement, the District is obligated to compensate employees for 50% of the accrued unused sick leave to a maximum of 1,000 hours. Compensated absences payable are presented in the liabilities section of the statement of net position.

The District provides health benefits through a cafeteria plan, which includes health, dental, and vision care to eligible District employees. Benefit expenses are recognized in the period in which the benefits were provided.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflow of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The District has only one type of deferred outflows of resources, which is pension related, and is disclosed in note 5.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of deferred inflows of resources, which is pension related, and is disclosed in note 5.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Net Position

Net position is categorized as follows:

Net Investment in Capital Assets – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding debt against the acquisition, construction, or improvement of those assets.

Restricted – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. The District did not have any restricted net position as of June 30, 2017 or June 30, 2016.

Unrestricted – This component of net position consists of net position that does not meet the definition of *restricted* net position or *net investment in capital assets*.

Restricted Resources

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

Operating and Nonoperating Activities

The District distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. The principal operating revenues of the District are charges to customers for sewer services. Operating expenses include the costs associated with providing sewer services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Property Taxes

Property taxes are attached as an enforceable lien on property as of March 1. Taxes are levied on July 1 and are due in two installments. The first installment is due on November 1, and is payable through December 10 without penalty. The second installment is due February 1, and becomes delinquent on April 10. Property taxes are remitted to the District from the County of San Bernardino at various times throughout the year.

Stewardship, Compliance and Accountability

Although the District prepares and adopts an annual budget, budgetary information is not presented because financial reporting standards do not require the presentation of budgetary information for business-type activities in the financial statements.

Pension Plan

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the San Bernardino County Employees' Retirement Association (SBCERA) and additions to/deductions from SBCERA's fiduciary net position have been determined on the same basis as they are reported by SBCERA. For this purpose, employer and employee contributions are recognized in the period the related salaries are earned and become measurable pursuant to formal commitments, statutory or contractual requirements, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms, and investments are reported at fair value. SBCERA audited financial statements are publicly available reports that can be obtained at SBCERA's website at www.sbcera.org.

GASB 68 requires that the reported results must pertain to liability and asset information within certain defined timeframes. For the year ended June 30, 2017, the following timeframes are used.

Valuation Date (VD)	June 30, 2016
Measurement Date (MD)	June 30, 2016
Measurement Period (MP)	July 1, 2015 to June 30, 2016

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment is, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

As of June 30, 2017, the District had the following investments:

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the District's investment policy and the actual rating as of year-end for each investment type.

NOTE 2: CASH AND INVESTMENTS (continued)

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. The District's investment policy is to apply the prudent investor standard as set forth in the California Government Code: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments.

The District's investment policy limits certain investments to minimum credit ratings issued by nationally recognized statistical rating organizations. The District's investments in commercial paper, medium-term notes, and money market funds at June 30, 2017 and 2016 met their respective minimum credit ratings requirements.

Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of the total District's investments are as follows:

As of June 30, 2017: None

As of June 30, 2016: None

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits. The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

As of June 30, 2017 and 2016, \$242,162 and \$171,068 of the District's deposits with financial institutions respectively, were in excess of the Federal Deposit Insurance Corporation (FDIC) limits. As of June 30, 2017 and 2016, these funds were fully collateralized by securities in a separate account held by the same institution.

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF), which is part of the Pooled Money Investment Account that is regulated by the California Government Code under the oversight of the State Treasurer, Director of Finance, and State Controller. The District may invest up to \$65 million in the LAIF fund. Investments in LAIF are highly liquid, as deposits can be converted to cash within 24 hours without loss of interest. The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. All investments with LAIF are secured by the full faith and credit of the State of California. Separate LAIF financial statements are available from the California State Treasurer's Office on the Internet at www.treasurer.ca.gov.

The District investment in this pool is reported in the accompanying financial statements at cost which approximates fair value at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). Included in LAIF's investment portfolio are certain derivative securities or similar products in the form of asset-backed securities totaling \$2,244 million and \$1,719 million, which represents 2.25% and 2.81% of the total LAIF portfolio of \$77.6 billion and \$75.4 billion as of June 30, 2017 and 2016, respectively. LAIF's (and the District's) exposure to risk (credit, market or legal) is not currently available.

Investment Trust of California

The District voluntarily participates in the Investment Trust of California (CalTRUST), a Joint Powers Authority ("JPA"), established by public agencies in California for the purpose of pooling and investing local agency funds, operating reserves, and bond proceeds. A Board of Trustees supervises and administers the investment program of the Trust. The Board is comprised of experienced investment officers and policy-makers of the public agency members.

For the CalTRUST Short-Term, Medium-Term, and Long-Term Accounts, funds from all participants are pooled in each of the accounts. Participants receive units in the Trust and designated shares for the particular accounts in which they invest. The District invests in the Short-Term and Medium-Term Accounts, with targeted investment durations of up to two years. CalTRUST invests in fixed income securities eligible for investment pursuant to California Government Code Sections 53601, et. Seq. and 53635, et. Seq. Investment guidelines adopted by the Board of Trustees may further restrict the types of investments held by the Trust, and leveraging within the Trust's portfolios is prohibited. Separate CalTRUST financial statements are available from the Trustee on the Internet at www.caltrust.org.

Fair Value Measurements

GASB Statement No. 72, *Fair Value Measurements and Application*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of quoted prices (unadjusted) for identical assets and liabilities in active markets that a government can access at the measurement date, Level 2 inputs consist of inputs other than quoted prices that are observable for an asset or liability, either directly or indirectly, and Level 3 inputs that have the lowest priority and consist of unobservable inputs for an asset or liability.

A. Loan Payable

On January 16, 1997, the District received a revolving fund loan from the State Water Resources Control Board in the amount of \$2,159,508. The proceeds of the loan were used to fund construction of the Houston Creek treatment plant effluent storage reservoir. Of the \$2,159,508 loan amount, \$359,925 was funded by local matching funds. At June 30, 2017 and 2016, the outstanding principal balance was \$106,151 and \$210,508 respectively.

The activity for the loan payable for the years ended June 30, 2017 and 2016 are as follows:

Balance 6/30/16	Additions	Deletions	Balance 6/30/17	Due within one year
\$ 210,508	\$ -	\$ (104,357)	\$ 106,151	\$ 106,151

B. Compensated Absences

The District's policies relating to compensated absences are described in Note 1. Changes in compensated absences for the years ended June 30, 2017 and 2016 were as follows:

Balance 6/30/16	Additions	Deletions	Balance 6/30/17	Due within one year
\$ 74,346	\$ 213,538	\$ (230,934)	\$ 56,950	\$ 11,390

C. Pension Obligation Bonds

The District participates in the San Bernardino County Employees' Retirement Association (SBCERA) pension plan. Prior to the District becoming self-governed in 2010, it was a component unit of the County of San Bernardino (County), and because of its participation in SBCERA, the District was a deemed participant in the issuance of three pension obligation bonds.

In November 1995, San Bernardino County Financing Authority issued Revenue Bonds for the purpose of enabling the County to finance its share of unfunded pension indebtedness. On June 24, 2004, the County issued County of San Bernardino Pension Obligation Bonds, Series 2004 A (Fixed Rate Bonds), County of San Bernardino Pension Obligation Bonds, Series 2004 B (Auction Rate Bonds), and County of San Bernardino Pension Obligation Bonds, Series 2004 C (Index Bonds). The Bonds have various maturity dates ranging from: 2005 to 2018 for Fixed Rate Bonds; 2004 to 2023 for Auction Rate Bonds; and 2004 to 2023 for Index Bonds. Series 2004 A Fixed Rate Bonds have fixed interest rates that range from 2.43% to 5.86%. The Series 2004 B Pension Obligation Bonds were fully refunded in April 2008 by the issued Pension Obligation Refunding Bonds, Series 2008, which have a fixed interest rate of 6.020%.

The District's liability for its proportionate share of the pension obligation bonds is contractually determined with the County, and is subject to change based on a number of relevant factors. The District's funding requirements for its proportionate share of the outstanding pension obligation bonds is based on a percentage of covered payroll, at a rate determined annually by the County. Funding requirements for the years ended June 30, 2017 and 2016 were 7.9% and 7.9% of covered payroll, respectively. Additional information about the pension obligation bonds is available in the County's Comprehensive Annual Financial Report and its Adopted Budget, which are both available at www.sbcounty.gov.

NOTE 4: LONG-TERM DEBT (continued)

C. Pension Obligation Bonds (continued)

Debt to maturity amortization schedules for the variable rate issues are based on the estimated average interest rate at the time of issuance. The District's proportionate share of the County's outstanding pension obligation bonds was estimated by multiplying the average of the District's proportionate share of pension obligation bond payments of approximately 0.1% by the total outstanding pension obligation bonds of the County. The difference between the District's change in proportionate share of the outstanding principal balance of the pension obligation bonds from the previous year and District's actual payments to the County during the year is reported as interest expense in the accompanying financial statements. Principal and interest payments made to the County for the years ended June 30, 2017 and 2016 were \$112,636 and \$109,458, respectively. The District's interest expense related to the pension obligation bonds during the years ended June 30, 2017 and 2016 was \$74,518 and \$74,267, respectively.

The activity for the pension obligation bonds for the years ended June 30, 2017 and 2016 was as follows:

Balance 6/30/16	Additions	Deletions	Balance 6/30/17	Due within one year
\$ 390,464	\$ -	\$ (38,118)	\$ 352,346	\$ 41,428

A summary of estimated pension obligation bond payments for the remaining fiscal years is as follows (actual payments are contractually determined each year):

Year Ending June 30,	Principal	Interest	Total
2018	\$ 41,428	\$ 68,728	\$ 110,156

NOTE 5: DEFINED BENEFIT PENSION PLAN

A. *General Information about the Pension Plan*

Plan Description

The District participates in the San Bernardino County Employees' Retirement Association (SBCERA) pension plan - a cost-sharing multiple-employer defined benefit pension plan (the Plan). SBCERA administers the Plan which provides benefits for two membership classifications, General and Safety, and those benefits are tiered based upon date of SBCERA membership. Safety membership is extended to those involved in active law enforcement and fire suppression. All other members are classified as General members. Generally, those who become members prior to January 1, 2013 are Tier 1 members. All other members are Tier 2. An employee who is appointed to a regular position, whose service is greater than fifty percent of the full standard of hours required are members of SBCERA, and are provided with pension benefits pursuant to Plan requirements.

The Plan operates under the provisions of the California County Employees' Retirement Law of 1937 (CERL), the California Public Employees' Pension Reform Act of 2013 (PEPRA), and the regulations, procedures and policies adopted by SBCERA's Board of Retirement (Board). The Plan's authority to establish and amend the benefit terms are set by the CERL and PEPRA, and may be amended by the California state legislature and in some cases require approval by the County of San Bernardino Board of Supervisors and/or the SBCERA Board. SBCERA is a tax qualified plan under Section 401(a) of the Internal Revenue Code.

SBCERA is a legally separate entity from the District, not a component unit, and there is no financial interdependency with the County of San Bernardino. For these reasons, the District's financial statements exclude the SBCERA pension plan as of June 30, 2017. SBCERA publishes its own comprehensive annual financial report that includes its financial statements and required supplementary information, that can be obtained by writing SBCERA at, 348 W. Hospitality Lane, Third Floor, San Bernardino, CA 92415-0014 or visiting the website at: www.sbcera.org.

NOTE 5: DEFINED BENEFIT PENSION PLAN (continued)

Benefits Provided

SBCERA provides retirement, disability, death and survivor benefits. The CERL and PEPRA establish benefit terms. Retirement benefits are calculated on the basis of age, average final compensation and service credit as follows:

	General - Tier 1	General - Tier 2
Final Average Compensation	Highest 12 months	Highest 36 months
Normal Retirement Age	Age 55	Age 55
Early Retirement: Years of Service required and/or age eligible for	Age 70 any years 10 Years ago 50 30 years any age	Age 70 any years 5 years age 52 N/A
Benefit percent per year of service for normal retirement age	2% per year of final average compensation for every year of service credit	2.5% per year of final average compensation for every year of service credit
Benefit Adjustments	Reduced before age 55, increased after 55 up to age 65	Reduced before age 67
Final Average Compensation Limitation	Internal Revenue Code section 401(a)(17)	Government Code section 7522.10

An automatic cost of living adjustment is provided to benefit recipients based on changes in the local region Consumer Price Index (CPI) up to a maximum of 2% per year. Any increase greater than 2% is banked and may be used in years where the CPI is less than 2%. There is a one-time 7% increase at retirement for members hired before August 19, 1975. The Plan also provides disability and death benefits to eligible members and their beneficiaries, respectively. For retired members, the death benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to benefits based on the members years of service or if the death was caused by employment. General members are also eligible for survivor benefits which are payable upon a member's death.

Contributions

Participating employers and active members are required by statute to contribute a percentage of covered salary to the Plan. This requirement is pursuant to Government Code sections 31453.5 and 31454, for participating employers and Government Code sections 31621.6, 31639.25 and 7522.30 for active members. The contribution requirements are established and may be amended by the SBCERA Board pursuant to Article 1 of the CERL, which is consistent with the Plan's actuarial funding policy. The contribution rates are adopted yearly, based on an annual actuarial valuation, conducted by an independent actuary, that requires actuarial assumptions with regard to mortality, expected future service (including age at entry into the Plan, if applicable and tier), and compensation increases of the members and beneficiaries. The combined active member and employer contribution rates are expected to finance the costs of benefits for employees that are allocated during the year, with an additional amount to finance any unfunded accrued liability. Participating employers may pay a portion of the active members' contributions through negotiations and bargaining agreements.

Employer contribution rates are as follows:

	<u>Employer Contribution Rates</u>	
	<u>Tier 1</u>	<u>Tier 2</u>
	<u>Members</u>	<u>Members</u>
	Membership Dates Before January 1, 2013	Membership Dates On or After January 1, 2013
Actuarially Determined Required Contribution Percentages for Years Ended:		
June 30, 2017	22.33%	19.20%
June 30, 2016	22.49%	19.39%

The required employer contributions and the amount paid to SBCERA by the District for the years ended June 30, 2017 and 2016 were \$296,144 and \$308,919, respectively. The District's employer contributions were equal to the required employer contributions for the years ended June 30, 2017 and 2016.

B. Net Pension Liability

At June 30, 2017, the District reported a net pension liability of \$2,084,814 for its proportionate share of the SBCERA's net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016. The District's reported liability at June 30, 2017, increased by \$551,649 from the District's prior year liability of \$1,533,165 because of changes in the SBCERA net pension liability and the District's proportionate share of that liability. The SBCERA's publicly available financial report provides details on the change in the net pension liability.

NOTE 5: DEFINED BENEFIT PENSION PLAN (continued)

The District's proportion of the net pension liability at June 30, 2017 was based on the District's contributions received by SBCERA during the measurement period for employer payroll paid dates from July 1, 2015 through June 30, 2016, relative to the total employer contributions received from all of SBCERA's participating employers. At measurement date June 30, 2016, the District's proportionate share of total employer contributions was 0.092%, which was an increase of 0.002% from its proportion measured as of measurement date June 30, 2015. A summary of principal assumptions and methods used to determine the net pension liability is as follows.

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

The significant actuarial assumptions and methods used to measure the total pension liability as of June 30, 2017 are as follows:

Valuation Date	June 30, 2016
Measurement Date	June 30, 2016
Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market Value of Assets
Actuarial Assumptions:	
Discount Rate (1)	7.50%
Inflation	3.25%
Salary Increases (2)	4.6% - 13.75%
Cost-of-Living Adjustments	Contingent upon consumer price index with a 2% maximum
Administrative expenses	0.60% of payroll
Mortality Rate Table (3)	Derived using SBCERA's participant data for all employers

(1) Includes inflation at 3.25% and is net of pension plan investment expense.

(2) Includes inflation at 3.25%, real "across the board" salary increases of 0.50%, plus merit and promotional increases. Amounts vary by service.

(3) Post-retirement mortality is based on the RP-2000 Combined Healthy Mortality Tables projected 20 years using Projection Scale BB.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of the June 30, 2014 Review of Economic Assumptions and Actuarial Experience Study (experience study) which covered the periods from July 1, 2010 through June 30, 2013.

**Actuarial Methods and Assumptions Used to Determine Total Pension Liability
(continued)**

The long-term expected rate of return on Plan investments was determined in 2014 using a building block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. This information is combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, and by adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocations approved by the SBCERA Board, and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before deducting investment expenses, used in the derivation of the long-term expected investment rate of return assumptions, are summarized in the following table. This information will change every three years based on the triennial actuarial experience study.

Discount Rate

The discount rate used to measure the total pension liability was 7.50% for the measurement periods ended June 30, 2016 and 2015. The projection of cash flows used to determine the discount rates assumed that contributions from participating employers and active Plan members are made at the actuarially determined contribution rates. For this purpose, only employee and employer contributions that are intended to fund benefits of current Plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future Plan members and their beneficiaries, as well as projected contributions from future Plan members, are not included. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments of 7.50% was applied to all periods of projected benefit payments to determine the total pension liability as of measurement dates June 30, 2016 and 2015, respectively.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the District's proportionate share of the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.50%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

District's proportionate share of the net pension liability for year ended:	1.00% Decrease 6.50%	Current Discount Rate 7.50%	1.00% Increase 8.50%

Valuation Date (VD), Measurement Date (MD).

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for the Plan as of June 30, 2017 and 2016 was as follows:

Proportionate share at June 30, 2017 (measurement date June 30, 2016)	0.08447%
Proportionate share at June 30, 2016 (measurement date June 30, 2015)	0.07891%

Recognition of Gains and Losses

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Difference between projected and actual earnings	5 year straight-line amortization
All other amounts	Straight-line amortization over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period

The expected average remaining service lifetime (EARSL) of all employees that are provided with pensions through SBCERA is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired) in the Plan. The EARSL for the Plan as of July 1, 2015 (the beginning of the measurement period ended June 30, 2016) is 6.24 years. The EARSL for the Plan as of July 1, 2014 (the beginning of the measurement period ended June 30, 2015) is 6.35 years.

D. Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

NOTE 6: OTHER POST-EMPLOYMENT BENEFITS

Plan Description

The District offers health care benefits to active and retired employees, as well as their qualified dependents through CalPERS. The CalPERS Plan is an agent multiple-employer plan governed by the Public Employees' Medical & Hospital Care Act (PEMHCA). Under PEMHCA, health coverage for the employee continues into retirement for employees who have reached at least age 62 with a minimum of 5 or 10 years of service, depending on hire date. Eligible retirees may enroll in any of the plans available through the CalPERS Program. The District pays the entire cost of coverage for the retiree and his or her dependents. The District provided health care benefits continue for the life of the retiree and spouse. The Plan's authority to establish and amend the benefit terms are set by the District's Board. The plan does not issue a stand-alone financial report.

Funding Policy and Annual Other Postemployment Benefit Costs

The District has not adopted a funding policy for its other post-employment benefits (OPEB) obligation. Contributions requirements of the District are established and may be amended through Board action. The District contributes 100% of the cost of current-year premiums for eligible retired plan members and their dependents. The District's annual OPEB cost (expense) is calculated based on the Annual Required Contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

NOTE 6: OTHER POST-EMPLOYMENT BENEFITS (continued)

Funding Policy and Annual Other Postemployment Benefit Costs (continued)

The following table shows the components of the District's annual OPEB cost, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the plan for the years ended June 30, 2017 and 2016:

	<u>June 30, 2017</u>	<u>June 30, 2016</u>
Annual required contribution	\$ 20,373	\$ 20,373
Interest on net OPEB obligation	5,166	4,267
Adjustment to annual required contribution	(4,919)	(4,063)
Annual OPEB cost	<u>20,620</u>	<u>20,577</u>
Contributions made	<u>(1,157)</u>	<u>(601)</u>
Increase in net OPEB obligation	19,463	19,976
Net OPEB obligation - beginning of year	<u>114,802</u>	<u>94,826</u>
Net OPEB obligation - end of year	<u>\$ 134,265</u>	<u>\$ 114,802</u>

The District's annual OPEB cost, which is equal to its annual required contribution, has been recognized as a part of the operating expenses of the District in the accompanying financial statements. The net OPEB obligation is separately presented in the statements of net position.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for previous three years are presented in the following table.

Plan	Year End	Annual OPEB Cost	Actual Contribution	Percentage of OPEB Cost Contributed	Net OPEB Obligation
OPEB	June 30, 2015	\$ 19,830	\$ 396	2%	\$ 94,826
OPEB	June 30, 2016	\$ 20,577	\$ 601	3%	\$ 114,802
OPEB	June 30, 2017	\$ 20,620	\$ 1,157	6%	\$ 134,265

Funded Status

The funded status of the plan as of June 30, 2017, based on the July 1, 2016 actuarial valuation is as follows:

Actuarial Accrued Liability (AAL)	\$ 204,205
Actuarial Value of Plan Assets	-
Unfunded Actuarial Accrued Liability (UAAL)	<u>\$ 204,205</u>
Funded ratio (value of trust assets / AAL)	0%
Covered payroll (active plan members)	\$ 1,345,333
UAAL as a percentage of covered payroll	15%

NOTE 6: OTHER POST-EMPLOYMENT BENEFITS (continued)

Actuarial Methods and Assumptions

Actuarial valuations of the ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial assets, consistent with the long-term perspective of the calculations. Significant methods and assumptions were as follows:

Valuation date	July 1, 2016
Actuarial cost method	Entry age normal
Amortization method	Level percent of covered payroll
Remaining amortization period	Closed 30 years as of the valuation date
Asset valuation method	Market value
Actuarial assumptions:	
Investment rate of return	4.50%
Inflation	2.75%
Payroll growth	2.75%
Healthcare trend rate	4.00%

NOTE 7: FEDERAL AND STATE GRANTS

From time to time, the District may receive funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantors cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

NOTE 8: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is a member of the Special District Risk Management Authority (SDRMA), an intergovernmental risk sharing joint powers authority created to provide self-insurance programs for California special districts. The purpose of the SDRMA is to arrange and administer programs of self-insured losses and to purchase excess insurance coverage. At June 30, 2017 and 2016, the District participated in the liability and property programs of the SDRMA as follows:

- General and auto liability, public officials and employees' errors and omissions: Total risk financing self-insurance limits of \$10,000,000, combined single limit at \$10,000,000 per occurrence.

In addition to the above, the District also has the following insurance coverage:

- Employee dishonesty coverage up to \$1,000,000 per loss includes public employee dishonesty, forgery or alteration and theft, disappearance and destruction coverage's.
- Property loss is paid at the replacement cost for property on file, if replaced within two years after the loss, otherwise paid on an actual cash value basis, to a combined total of \$1.0 billion per occurrence, subject to a \$2,000 deductible per occurrence.
- Boiler and machinery coverage for the replacement cost up to \$100 million per occurrence, subject to a \$1,000 deductible per occurrence.
- Public official's personal liability up to \$500,000 each occurrence, with an annual aggregate of \$500,000 per each elected/appointed official to which this coverage applies, subject to the terms, with no deductible per claim.
- Workers' compensation insurance with statutory limits per occurrence and Employer's Liability Coverage up to \$5 million.

Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage. Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no material IBNR claims payable as of June 30, 2017 and 2016.

NOTE 9: PROPOSITION 111 APPROPRIATION LIMITS

Proposition 111, which added Article XIII B to the State Constitution, established limits on budget appropriations in order to restrict government spending. Proceeds of taxes received by the District during the 2016-2017 and 2015-2016 fiscal years were within the guidelines established by Proposition 111.

NOTE 10: SUBSEQUENT EVENTS

Management has evaluated subsequent events through November 27, 2017, which is the date the financial statements were available to be issued, and has determined that there are no transactions that will have a significant impact on the District or require reporting.

Actuarially determined contribution rates

Actuarially determined contribution rates for SBCERA are calculated as of June 30 two years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are presented in SBCERA's 2016 Comprehensive Annual Financial Report (CAFR), available at www.sbcera.org.
