

CRESTLINE SANITATION DISTRICT

*MEMORANDUM*

**DATE:** September 14, 2023

**TO:** BOARD OF DIRECTORS  
Crestline Sanitation District

**FROM:** DAWN GRANTHAM  
Assistant General Manager

**SUBJECT:** HUSTON CREEK WWTP ROAD PAVING

**A. RECOMMENDATION**

To approve the road paving to not exceed \$50,000.00

**B. OTHER INFORMATION**

The roads at the Plant are currently in a condition called “crocodiling”, this is when the asphalt is severely cracked and breaking. There are some areas that the construction company is responsible for, but there is a lot of area not under the contract. The contractors are preparing to lay the asphalt and we would be able to use them while they are onsite.

**C. FISCAL INFORMATION**

The contractors are currently reviewing costs for different sections. If the entire Plant could not be re-asphalted due to monetary restrictions, we would then look at the most critical areas up to the amount allotted in the Budget CIP list for this year.

**D. ATTACHMENTS**

Map of Huston Creek WWTP. All areas in green are under the contract, areas in orange (with a few exceptions for the trenches) are the areas that would be at District cost.
