

OPERATIONS MANAGER - STATUS REPORT

January 9th, 2025

Treatment Plants

The treatment plants continue to meet constituent discharge requirements on a routine basis.

Collection System

Crews are continuing with regular operations, daily inspections of District lift stations, issuance of correction notices for repairs on private laterals, and inspections on all repairs. Throughout the month, collection staff inspected waterways and the district effluent outfall line after all rain events. For December the district hydraulically cleaned 4,074 feet of line, and televised 5,528 feet of line.

Regulatory Compliance: District is maintaining a >90% compliance currently through the 2024 calendar year...i.e., < 2 SSO's, RWQCB Plant Discharge Requirements.

Facilities & Infrastructure

There have been no discharge violations due to equipment failure

Talking Points

- Construction continues on the plant upgrades continues as scheduled, The SCE Cutover was scheduled for 1/7/2024, but had to be delayed by SCE due to weather concerns. The new Cutover date has been set for Friday 1/10/2024
- Operations staff have installed and put online the new washer compactor under the automatic bar screen at Huston Creek to catch and clean the solids removed from the wastewater by the Automatic bar screen.
- Exciting news from the CWEA Board Dawn Grantham was awarded Supervisor of the year for the DAMS Section of the CWEA. The Board recognized her with a plaque and a statement at the Christmas dinner and awards Banquet on December 6th.
- Management finally got the completed application for the erosion control project at Seeley Creek approved and returned. The construction project started the last 2 weeks of December and has continued at full speed making great progress, we hope to have it completed by the end of next week.
