

ORDER OF PROCEDURE

PUBLIC HEARING

HUSTON CREEK WWTP DEWATERING BUILDING AND PRIMARY CLARIFIER PROJECT

Board President: THIS IS THE TIME AND PLACE SET FOR THE PUBLIC HEARING ON HUSTON CREEK WWTP DEWATERING BUILDING AND PRIMARY CLARIFIER PROJECT AND MITIGATED NEGATIVE DECLARATION, WHICH IS ITEM 6 ON OUR AGENDA.

THIS PUBLIC HEARING IS NOW OPEN.

I NOW CALL UPON THE BOARD SECRETARY TO CONFIRM THE POSTING AND PUBLICATION OF THE HEARING NOTICE.

Board Secretary: “A notice of this public hearing was posted and published in Mountain News and The Alpine Mountaineer in the manner and form as required by law.”

Board President: THE STAFF WILL NOW PROVIDE A PRESENTATION

General Manager: “upgrade its existing wastewater treatment plant by adding a primary clarifier, backup generator, trickling filter recirculation pumps, and a sludge dewatering building with associated sludge dewatering and conveyance equipment (proposed Project). Construction is estimated to occur in approximately 2020 and last approximately 24 months. The existing facilities in the proposed project area were constructed in 1952 (e.g. primary clarifiers) and 1984 (e.g. sludge handling facility). These facilities are reaching the end of their serviceable life, and are not designed to meet current engineering standards and community wastewater treatment demands.

The new primary clarifier is proposed to be approximately 38 feet in diameter and approximately 15 feet deep. This will provide redundancy for the two existing clarifiers which are each approximately 26 feet in diameter and approximately 8 feet deep. The new primary clarifier will act as the primary wastewater clarifier, designed to process the existing capacity of the two existing clarifiers, and the existing clarifiers will serve as redundancy. Each of the two existing clarifiers have a design capacity of 0.35 MGD, and the new clarifier will have a design capacity of 0.7 MGD.

The new dewatering building will be a two-story building. It is estimated to be approximately 34 feet wide by 51 feet long by 30 feet tall. An approximately 23 foot square by 15 foot high reinforced concrete thickened sludge holding tank with mixing system will be constructed adjacent to the new dewatering building. Equipment in the building will include:

- Two (2) thickened sludge pumps,
- Polymer storage and dosing system,
- Two (2) dewatering screw presses with motors,
- Dewatered cake conveyor system consisting of approximately three (3) conveyors, and
- Two (2) filtrate pumps.

The existing plant sits on a knoll of a slope, and the developed area encompasses approximately 3 acres, surrounded by a fence. The Proposed work will primarily occur within the fenced, developed area of the existing facility.

Site work includes constructing the new dewatering building within the existing grassy area adjacent to the existing dewatering building on the northwest side, constructing the new clarifier adjacent to the two existing clarifiers, and associated underground pipelines.

Board President

THANK YOU FOR THAT PRESENTATION. ARE THERE ANY QUESTIONS OF STAFF AT THIS TIME?

[President to call on Board members to ask any questions.]

AT THIS TIME, WE WILL NOW TURN TO PUBLIC TESTIMONY. THIS IS A PUBLIC HEARING FOR THE RECEIPT OF ORAL AND WRITTEN PUBLIC TESTIMONY FOR AND AGAINST THE HUSTON CREEK WWTP DEWATERING BUILDING AND PRIMARY CLARIFIER PROJECT AND MITIGATED NEGATIVE DECLARATION PREPARED UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT. YOU ARE NOT REQUIRED TO PROVIDE ORAL TESTIMONY IN ORDER TO SUBMIT A WRITTEN COMMENT. IF YOU WISH, YOU MAY SIMPLY SUBMIT YOUR WRITTEN COMMENT TO VVWRA'S PERSONNEL.

AS YOU COME FORWARD TO SPEAK, PLEASE IDENTIFY YOURSELF AND YOUR ADDRESS. YOU WILL HAVE THE CUSTOMARY 3 MINUTES TO SPEAK. THE BOARD SECRETARY WILL LET YOU KNOW WHEN YOU HAVE ONE MINUTE REMAINING SO THAT YOU CAN CONCLUDE YOUR REMARKS.

[Speakers are called and provide testimony.]

SEEING NO OTHERS WHO WISH TO SPEAK ON THIS MATTER, I AM PREPARED TO CLOSE THE PUBLIC HEARING. HOWEVER, BEFORE I DO THAT, I WOULD LIKE TO PROVIDE ANYONE WHO WOULD LIKE TO SUBMIT ANY WRITTEN OR ORAL COMMENTS A FINAL OPPORTUNITY TO DO SO. ONCE THE PUBLIC HEARING IS CLOSED, WE WILL BE PROHIBITED FROM ACCEPTING ANY FURTHER ORAL OR WRITTEN TESTIMONY.

ARE THERE ANY REMAINING WRITTEN COMMENTS? ARE THERE ANY REMAINING ORAL COMMENTS?

[Allow any final comments.]

SEEING NO ONE ELSE WISHING TO SPEAK, I HEREBY DECLARE THE PUBLIC HEARING CLOSED.

Board President:

WE WILL NOW MOVE ON TO THE ACTION AND DISCUSSION ITEMS ON OUR AGENDA. THE FIRST OF THOSE IS ITEM 7 WHICH IS TO CONSIDER ADOPTION OF RESOLUTION NO. 063: A RESOLUTION OF THE BOARD OF

DIRECTORS OF THE CRESTLINE SANITATION DISTRICT MAKING FINDINGS AND ADOPTING A MITIGATED NEGATIVE DECLARATION PURSUANT TO THE CALIFORNIA ENVIRONMENTAL QUALITY ACT, AND APPROVING THE HUSTON CREEK WWTP DEWATERING BUILDING AND PRIMARY CLARIFIER PROJECT. DOES STAFF HAVE ANY FURTHER COMMENTS OR PRESENTATION THAT WILL BE MADE AT THIS TIME?

[Staff provides any other report and/or clarifies any comments made by the public.]

THANK YOU VERY MUCH. ARE THERE ARE ANY COMMENTS OR QUESTIONS FROM THE BOARD?

[Board discussion/questions.]

MOTION:

IF THERE IS NO OTHER BOARD DISCUSSION, I WILL ENTERTAIN A MOTION TO ADOPT RESOLUTION NO. 063, A RESOLUTION OF THE BOARD OF DIRECTORS OF THE CRESTLINE SANITATION DISTRICT MAKING FINDINGS AND ADOPTING A MITIGATED NEGATIVE DECLARATION PURSUANT TO THE CALIFORNIA ENVIRONMENTAL QUALITY ACT, AND APPROVING THE HUSTON CREEK WWTP DEWATERING BUILDING AND PRIMARY CLARIFIER PROJECT

PROCEED WITH STANDARD MOTION, SECOND AND ROLL CALL
